EXHIBITORS' PERSPECTIVES

Grupo Rumbo

"A great meeting point to reconnect with our customers and continue strengthening business relationships."

Impexpro

"A crucial space to show where the brand is headed and strengthen relationships with our partners."

Lüsqtoff

"ExpoFerretera is the ideal place to innovate, launch new products, and build a close bond with our customers."

Bosch

"A key opportunity to showcase our latest innovations and connect with new customers."

Hamilton

"A unique opportunity to present all our lines and showcase the innovation that defines the brand."

ABOUT

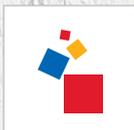

Innovation, suppliers, and new opportunities for the hardware sector

With record attendance and strong participation from professional visitors, **ExpoFerretera 2025** once again positioned itself as the benchmark event for the hardware sector.

This edition was held jointly with BIEL Light + Building Buenos Aires, which helped strengthen content, expand the commercial offering, and create new opportunities across the entire value chain.

Over four days, manufacturers, distributors, and suppliers of products for hardware stores, plumbing/sanitary, paint stores, and construction materials gathered at La Rural to showcase products, build new business contacts, and discover the latest market innovations.

Organized by **CAFARA** and **Messe Frankfurt Argentina**, the exhibition reinforced its strategic role as a driver of business, professionalization, and growth for the entire hardware value chain.

CAFARA Conferences

A space for exchange and professional upskilling led by industry specialists. Sales strategies, legal tools, and key know-how were shared to support the management and professionalization of hardware stores.

Exhibitors' Conferences

Representatives of leading brands presented new products, launches, and catalog expansions, providing technical and commercial guidance to a well-attended auditorium.

Demonstration Area: 'Illuminate and Build'

An interactive space where companies showcased machinery and products in operation. Visitors could see real-world applications, receive technical advice, and access practical recommendations for different projects.
